

Lesson: Subtracting Two-Digit Numbers

Lesson Topic: Subtract with no regrouping

Question 1:

Find the difference.

$$\begin{array}{r} 47 \\ - 23 \\ \hline 2 \square \end{array}$$

Question 2:

Find the difference.

$$\begin{array}{r} 47 \\ - 23 \\ \hline \square 4 \end{array}$$

Question 3:

Find the difference.

$$\begin{array}{r} 57 \\ - 36 \\ \hline \square \square \end{array}$$

Question 4:

Find the difference.

$$\begin{array}{r} 69 \\ - 17 \\ \hline \square \square \end{array}$$

Question 5:

Subtract:

$$\begin{array}{r} 57 \\ - 36 \\ \hline \end{array}$$

Lesson Topic: Subtract with regrouping

Question 1:

Subtract:

$$\begin{array}{r} 53 \\ - 38 \\ \hline \square \end{array}$$

Question 2:

Subtract:

$$\begin{array}{r} 74 \\ - 27 \\ \hline \square \end{array}$$

Question 3:

Find the difference.

$$\begin{array}{r} 56 \\ - 37 \\ \hline 1 \square \end{array}$$

Question 4:

Subtract:

$$\begin{array}{r} 61 \\ - 35 \\ \hline \square \end{array}$$

Question 5:

Subtract:

$$\begin{array}{r} 82 \\ - 43 \\ \hline \square \end{array}$$

Lesson Topic: Subtract multi-digit numbers word problems

Question 1:

Last week, your class recycled **72** sheets of paper. This week, your class recycled **28** fewer pieces of paper. How many sheets of paper did your class recycle this week?

sheets

Question 2:

You want to buy a drink that costs **79** cents. If you only have **53** cents, how many more cents do you need to buy the drink?

cents

Question 3:

You spent **58** minutes doing English homework and **47** minutes doing math homework. How much more time did you spend doing English homework?

minutes

Question 4:

The fifth grade class has **97** students. The third grade class has **68** students. How many more students are in the fifth grade?

students

Question 5:

Together, you and your friend collected **88** pebbles at the stream. You collected **46** pebbles at the stream. How many pebbles did your friend collect?

pebbles

Correct Answers

Lesson: Subtracting Two-Digit Numbers

Lesson Topic: Subtract with no regrouping

Question 1:

4

Question 2:

2

Question 3:

2|1

Question 4:

5|2

Question 5:

21

Lesson Topic: Subtract with regrouping

Question 1:

15

Question 2:

47

Question 3:

9

Question 4:

26

Question 5:

39

Lesson Topic: Subtract multi-digit numbers word problems

Question 1:

44 sheets

Question 2:

79 cents – 53 cents = **26** cents

Question 3:

11 minutes

Question 4:

29 students

Question 5:

42 pebbles
