find a magnet around your house. A great place to look is right on your refrigerator! Remember magnets come in all shapes and sizes. Using this magnet explore your house to see what is magnetic (attracts the magnet) or non-magnetic (does not attract your magnet).

**Try to find at least 10 objects to test.** *(Please do not test your computer or cell phone as it may be dangerous to it)*

Magnetic	Non-magnetic
Ex: refrigerator	Ex: wooden trash can
