Our Program

All around us we hear about the value of technology, project-based learning, deeper learning, new brain research and a better understanding of how kids, or any of us for that matter, really learn.

At iLEAD we've built a model based on what we believe to be the best of all that is out there. We believe passionately in project-based learning not because it's a fad but because it goes to the heart of how kids learn. We've incorporated technology not as a spiffy add-on but as an organic part of the learning process in the 21st century.

We value and encourage leadership not just as a part of a career track but by instilling in each learner the confidence and character that inspire others.

It's not unusual that we want our learners to think for themselves. But to do this requires a grounding in the arts, in design and in humanities, and the need to feel at home in the world. For us, "thinking for themselves" is not just about solving problems but about an organic vision of the world they live in and one they will inherit.

Finally, we value the social and emotional development of our learners. We believe there is an implicit, as well as an explicit, curriculum to teach. Our goal is nothing short of learning, to change the world.

iLEAD Vision

To use project-based and social-emotional learning concepts to inspire and motivate lifelong learners with the skills they need to lead in the 21st century.

School Progress

Sponsor Statement: *Ohio Council of Community Schools (OCCS) uses various methods to evaluate the school's performance including published tests and other academic scores such as the Ohio Department of Education Local Report Card and supporting data. OCCS regional representatives visit our partner schools regularly ensuring compliance with federal, state, and contractual requirements. The results of this monitoring for the 2020-2021 school year are published in the 2020 Ohio Council of Community Schools Annual Report, available after November 30 at www.ohioschools.org*

Achievement

The state's accountability system and Ohio School Report Cards for the 2019-2020 and 2020-2021 school years will look different because of short-term changes in Ohio law and the accountability waivers approved by the U.S. Department of Education. **Therefore, updated spreadsheets reporting the letter grades or ratings will not be available for the 2019-2020 or 2020-2021 school years.**
